

Data Privacy Coverage for Physicians and Surgeons

General Star automatically provides four types of Data Privacy protection as part of its standard coverage on Select and Premier Physicians & Surgeons policies. Now more than ever, it is important for doctors to guard themselves from the vulnerabilities arising out of advances in technology. General Star has responded with a solution designed especially for this emerging risk!

Our Data Privacy coverage consists of the following four categories:

- > Breach of privacy and security coverage
 - \$50,000 limit
- > Government assessed fines and penalties
 - \$50,000 limit
- > Advisory Costs
 - \$50,000 limit
- > Data Restoration Coverage
 - \$5,000 limit

Data Privacy coverage is provided as a separate coverage part and is included without additional charge. Payments made for Data Privacy claims do not erode the Professional Liability limits available in the Professional Liability coverage part.

Insurance is placed with the General Star companies by licensed wholesale brokers. Not all coverages described above are available in all states. General Star National Insurance Company and General Star Indemnity Company are rated A++ (Superior) by A.M. Best Company and have a AA+ Insurance Financial Strength Rating from Standard & Poor's Corporation. Availability of coverage depends on underwriting qualifications and state regulations.
