

Designated Truckload for Specified Contracts

The Casualty Division offers Excess Automobile Designated Truckload coverage.

Benefits

- > Purchasing this customized coverage provides immediate cost savings to a trucking insured. This is accomplished by adding coverage **only for** the increase in limits required in a contract between a trucker and its customer—and limited to the operations described in the contract
- > Due to the precisely limited coverage afforded, the premium for this specialized coverage is significantly lower than traditional alternatives
- > Our product delivers a significant competitive advantage to truckers seeking contracts with a variety of customers. This is due to our ability to charge **only for** those exposures and limits associated with each contract. An insured no longer faces the prospect of increasing the limits for its entire fleet (and paying a significantly higher additional premium) to compete for attractive opportunities

Coverages Offered

Excess Automobile Liability

- > Coverage is provided where higher limits are required by contractual obligation and where specified vehicles are incapable of being dedicated to such a specific trucking contract

Target Accounts

- > All truckers who compete for trucking business which requires an increase to their limit of liability due to contractual obligations

Minimum Premium

- > \$5,000

Limits Available

- > \$5,000,000 per occurrence

Conditions

- > Combined Primary and Excess limits will equal the limits required by the contract
- > Coverage is limited to truckloads transported under a specified contract (a "designated truckload")
- > Bobtailing and Deadheading exposures are ineligible for this coverage
- > In the event of an accident, the Bill of Lading must be produced as a condition for coverage
- > Coverage will be Minimum and Deposit adjustable

General Star Indemnity Company and **General Star National Insurance Company**
