"Nobody believes me when I tell them about the big one that got away. They want proof.

"But when it comes to the financial strength of General Star, everyone's a believer. With A.M. Best and S&P ratings of A++ and AAA I've got all the proof I need. They're a real keeper!

"Maybe I exaggerate just a little when I go deep sea fishing, but the unsurpassed security of General Star is definitely no fish tale!"
