

Beyond Security™

**“With strong support
you can achieve anything . . .
even a black belt.”**

“I’m proud of my girls’ achievements. One black belt and one purple — it’s Katie’s favorite color. Naturally, they take all the credit, but support from mom (with the mileage to prove it) helped.

“General Star has been supporting us since we got our start in the early 1980s. It was their innovative products and programs that helped to shape our identity, and gave us the competitive edge we needed to succeed.

“With General Re behind them, the security is there. But it’s the quality of their people, our relationship and their commitment to do more that really sets them apart.”
